Option 2: visit this webpage.

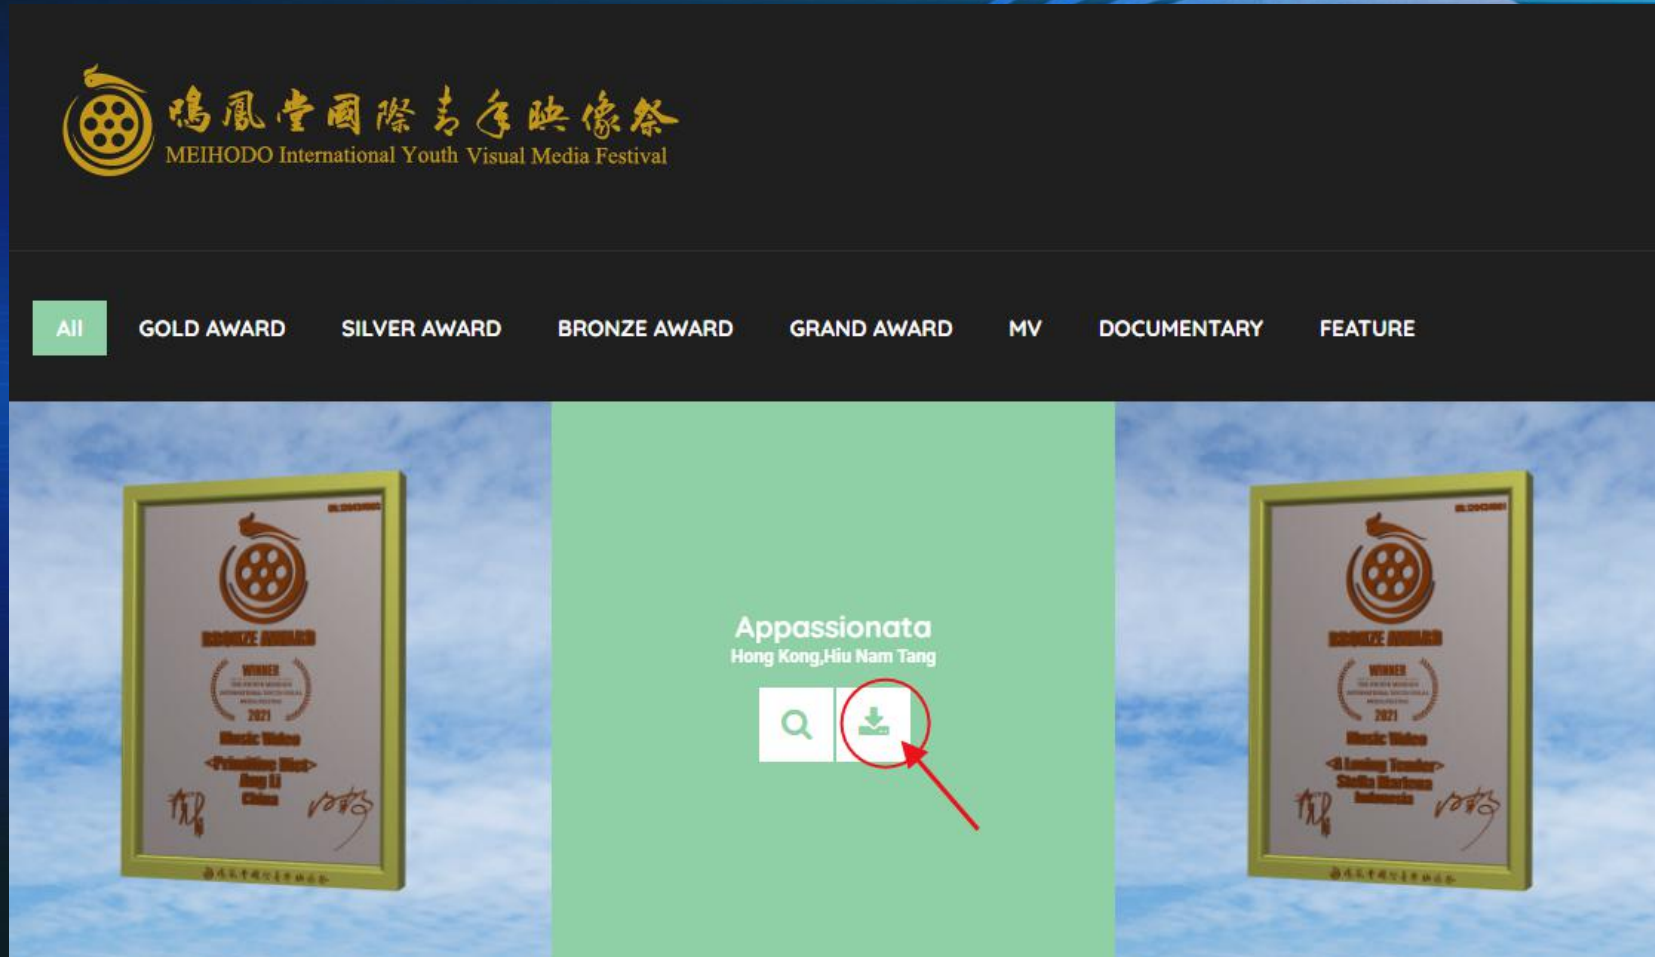

<https://www.festival-meihodo.com/award2021/index.html>

Option 3: use your mobile phone to scan the QR code to access the page.

### 3. How to access the page

After opening the page, place your mouse on top of the certificate, the icon indicated by the red arrow will appear. Click on this button to download the AR file, or use your iPhone to open the AR file.

#### 4. How to open an AR file

After clicking download you will see the following image. Simply click on the image to enter the AR interface.

## 5. How to take a photo with your AR certificate.

After entering the AR interface, you can manipulate the 3D certificate using your fingers. Pressing on the image will allow you to take a photo. You will be able to enter the shot and take a photo with your certificate. You can place it anywhere you want with the help of AR tech and share it with your friends on social media.

You can share this with your friends and family by clicking on the share button in the top right-hand corner. After they receive it, they can access your 3D certificate on their Apple device as well.

→ Share

→ Two fingers to adjust size, drag it with two fingers to adjust its position.

→ Take a photo

## 6. 3D certificate showcase
